## Second Quarter and First Half 2024 Review

CHARLOTTE, July 31, 2024 – Coca-Cola Consolidated, Inc. (NASDAQ: COKE) today reported operating results for the second quarter ended June 28, 2024 and the first half of fiscal 2024.

“We are pleased to report strong second quarter results that reflect our continued focus on margin management and operating efficiency,” said J. Frank Harrison, III, Chairman and Chief Executive Officer. “In addition to reaching higher levels of profitability this quarter, we made important progress in our commitment to build long-term value for our stockholders through a significant repurchase of our common shares. We look forward to communicating additional plans with you in the coming weeks.”

Net sales increased 3.3% to \$1.8 billion in the second quarter of 2024 and increased 2.3% to \$3.4 billion in the first half of 2024. Sparkling and Still net sales increased 4.4% and 4.2%, respectively, compared to the second quarter of 2023. The net sales growth was driven by pricing actions taken during the first quarter of 2024.

Standard physical case volume was down 1.2% in the second quarter of 2024 and down 0.8% in the first half of the year. For the first half of 2024, comparable<sup>(b)</sup> standard physical case volume decreased 0.3% compared to the first half of 2023, which included one additional selling day. Sparkling category volume remained relatively flat during the second quarter with strong performance of multi-serve can packages sold in larger retail stores. Still category physical case volume declined 3.5% during the second quarter of 2024. We continue to see softness in Dasani casepack water as well as BODYARMOR but we experienced strength in several key brands including Monster, POWERade, Core Power and vitaminwater.

“Our local teams did outstanding work executing our commercial plan leading up to the July 4<sup>th</sup> holiday, which resulted in very solid performance of our brands this quarter,” said Dave Katz, President and Chief Operating Officer. “We are especially pleased with the performance of our Sparkling brands as we’ve expanded our portfolio with a variety of value-oriented packages.”

Direct store delivery (“DSD”) is our preferred and primary route to market. However, as our business becomes more complex with an increasing number of brands and packages, we are expanding our delivery methods to include routes to market outside our traditional DSD capabilities. We receive fees associated with our non-DSD sales that benefit our overall profitability but the volume is not reported as part of our standard physical case volume. For example, we have shifted the distribution of casepack Dasani water sold in Walmart stores to a non-DSD method of distribution which reduced our second quarter reported case sales by 0.8%.

Gross profit in the second quarter of 2024 was \$716.7 million, an increase of \$45.1 million, or 7%. Gross margin improved 130 basis points to 39.9%. Pricing actions taken during the first quarter of 2024 along with

steady commodity prices were the largest contributors to the overall improvement in gross margin. Gross profit in the first half of 2024 was \$1.4 billion, an increase of \$61.6 million, or 4.8%.

“Our consistent capital investments in mini can and small PET production capabilities over the past several years have enabled us to actively respond to the evolving needs of our consumers and retail partners,” Mr. Katz continued. “We are closely monitoring consumer behavior and traffic in key customers as we balance our approach to pricing and package mix.”

Selling, delivery and administrative (“SD&A”) expenses in the second quarter of 2024 increased \$19.7 million, or 5%. SD&A expenses as a percentage of net sales increased 30 basis points to 25.5% in the second quarter of 2024. The increase in SD&A expenses as compared to the second quarter of 2023 was primarily driven by an increase in labor costs, mostly related to annual wage adjustments and overall inflation. SD&A expenses in the first half of 2024 increased \$26.8 million, or 3.1%. SD&A expenses as a percentage of net sales in the first half of 2024 increased 20 basis points to 26.1% as compared to the first half of 2023.

Income from operations in the second quarter of 2024 was \$259.1 million, compared to \$233.7 million in the second quarter of 2023, an increase of 11%. For the first half of 2024, income from operations increased \$34.8 million to \$474.5 million, an increase of 8%. Operating margin for the first half of 2024 was 14.0% as compared to 13.3% for the first half of 2023, an increase of 70 basis points.

Net income in the second quarter of 2024 was \$172.8 million, compared to \$122.3 million in the second quarter of 2023, an improvement of \$50.5 million. On an adjusted<sup>(b)</sup> basis, net income in the second quarter of 2024 was \$192.8 million, compared to \$172.5 million in the second quarter of 2023, an increase of \$20.3 million. Income tax expense for the second quarter of 2024 was \$59.4 million, compared to \$42.4 million for the second quarter of 2023, resulting in an effective income tax rate of approximately 26% for both periods.

Net income in the first half of 2024 was \$338.6 million, compared to \$240.4 million in the first half of 2023, an improvement of \$98.1 million. Net income for the second quarter and first half of 2023 was adversely impacted by the partial settlement of our primary pension plan benefit liabilities during the prior year, which resulted in a non-cash charge of \$39.8 million.

Cash flows provided by operations for the first half of 2024 were \$437.1 million, compared to \$383.3 million for the first half of 2023. Cash flows from operations reflected our strong operating performance during the first half of 2024. In the first half of 2024, we invested \$159 million in capital expenditures as we continue to enhance our supply chain and invest for future growth. For the full year of 2024, we expect our capital expenditures to be between \$300 million and \$350 million.

<sup>(a)</sup> All comparisons are to the corresponding period in the prior year unless specified otherwise.

<sup>(b)</sup> The discussion of the operating results for the second quarter ended June 28, 2024 and the first half of fiscal 2024 includes selected non-GAAP financial information, such as “comparable” and “adjusted” results. The schedules in this news release reconcile such non-GAAP financial measures to the most directly comparable GAAP financial measures.

## Cautionary Note Regarding Forward-Looking Statements

Certain statements contained in this news release are “forward-looking statements” that involve risks and uncertainties which we expect will or may occur in the future and may impact our business, financial condition and results of operations. The words “anticipate,” “believe,” “expect,” “intend,” “project,” “may,” “will,” “should,” “could” and similar expressions are intended to identify those forward-looking statements. These forward-looking statements reflect the Company’s best judgment based on current information, and, although we base these statements on circumstances that we believe to be reasonable when made, there can be no assurance that future events will not affect the accuracy of such forward-looking information. As such, the forward-looking statements are not guarantees of future performance, and actual results may vary materially from the projected results and expectations discussed in this news release. Factors that might cause the Company’s actual results to differ materially from those anticipated in forward-looking statements include, but are not limited to: increased costs (including due to inflation), disruption of supply or unavailability or shortages of raw materials, fuel and other supplies; the reliance on purchased finished products from external sources; changes in public and consumer perception and preferences, including concerns related to product safety and sustainability, artificial ingredients, brand reputation and obesity; changes in government regulations related to nonalcoholic beverages, including regulations related to obesity, public health, artificial ingredients and product safety and sustainability; decreases from historic levels of marketing funding support provided to us by The Coca-Cola Company and other beverage companies; material changes in the performance requirements for marketing funding support or our inability to meet such requirements; decreases from historic levels of advertising, marketing and product innovation spending by The Coca-Cola Company and other beverage companies, or advertising campaigns that are negatively perceived by the public; any failure of the several Coca-Cola system governance entities of which we are a participant to function efficiently or on our best behalf and any failure or delay of ours to receive anticipated benefits from these governance entities; provisions in our beverage distribution and manufacturing agreements with The Coca-Cola Company that could delay or prevent a change in control of us or a sale of our Coca-Cola distribution or manufacturing businesses; the concentration of our capital stock ownership; our inability to meet requirements under our beverage distribution and manufacturing agreements; changes in the inputs used to calculate our acquisition related contingent consideration liability; technology failures or cyberattacks on our information technology systems or our effective response to technology failures or cyberattacks on our customers’, suppliers’ or other third parties’ information technology systems; unfavorable changes in the general economy; the concentration risks among our customers and suppliers; lower than expected net pricing of our products resulting from continued and increased customer and competitor consolidations and marketplace competition; the effect of changes in our level of debt, borrowing costs and credit ratings on our access to capital and credit markets, operating flexibility and ability to obtain additional financing to fund future needs; the failure to attract, train and retain qualified employees while controlling labor costs, and other labor issues; the failure to maintain productive relationships with our employees covered by collective bargaining agreements, including failing to renegotiate collective bargaining agreements; changes in accounting standards; our use of estimates and assumptions; changes in tax laws, disagreements with tax authorities or additional tax liabilities; changes in legal contingencies; natural disasters, changing weather patterns and unfavorable weather; climate change or legislative or regulatory responses to such change; and the impact of any pandemic or public health situation. These and other factors are discussed in the Company’s regulatory filings with the United States Securities and Exchange Commission, including those in “Item 1A. Risk Factors” of the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2023. The forward-looking statements contained in this news release speak only as of this date, and the Company does not assume any obligation to update them, except as may be required by applicable law.

<sup>(c)</sup> The Company reports its financial results in accordance with accounting principles generally accepted in the United States (“GAAP”). However, management believes that certain non-GAAP financial measures provide users of the financial statements with additional, meaningful financial information that should be considered, in addition to the measures reported in accordance with GAAP, when assessing the Company’s ongoing performance. Management also uses these non-GAAP financial measures in making financial, operating and planning decisions and in evaluating the Company’s performance. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the Company’s reported results prepared in accordance with GAAP. The Company’s non-GAAP financial information does not represent a comprehensive basis of accounting.
